Doris Small listens to music on
her headset.

Listening to music from the
past helps to bring back many
happy memories; and may
even help with memory loss.

As the saying goes, "A picture
is worth a thousand words"

From the smile on Doris's face
she is enjoying herself.

CDC recommends a yearly flu vaccine for everyone 6 months of age and older as the first and most important step in protecting against the serious illness, influenza. Especially at high risk our are elderly residents. The flu vaccine was given in October. to our residents and staff. In addition to getting a seasonal flu vaccine, we all can take everyday preventive actions like staying away from sick people and washing your hands to reduce the spread of germs. Remember if you are ill do not visit the nursing home.
